## Projected Image Competitions

The **submission deadline** is generally **6pm on the Sunday** preceding the Tuesday competition to allow time for the Competition Team to prepare the competition for projection. There may be some flexibility in this, but to guarantee inclusion in the competition you should meet this deadline.

### Preparing your digital images

Your pictures should be jpegs sized to 1920 x 1080 pixels. Use the sRGB colour space. If you do not understand this then do please ask for help in the group's facebook page and if you are unable to resize or you are unsure, don't worry and don't let it hold you back from entering the competition. The applications we use for our competitions are very flexible and good results can be achieved from almost all jpegs. However if your image file size is too large or too small then it may not look its best; straight edges may be jagged or the image will become pixelated.

### Submitting your digital images

Put your pictures into a folder. The name of the folder should be your name, for example, if your name is Alice Bigley , then call the folder 'Alice Bigley'.

Name each picture file with your competition number and the title. For example, I am going to enter three pictures of the sky and so I have named them as follows, the first number is my competition number and then there is the picture's title, I have used spaces between each word:

135 View of a Blue Sky

136 A Beautiful Sunset

137 Another Beautiful Sunset

Submit your pictures during the weekend before the Tuesday competition.

1. We prefer [www.dropbox.com](http://www.dropbox.com) for submitting entries because it is reliable and avoids problems with emailing attachments. Create an account, put your images in a folder with your name (as above) and then invite [competition@northfieldscameraclub.org.uk](mailto:competition@northfieldscameraclub.org.uk) to share the folder with you. Also send a mail to [competition@northfieldscameraclub.org.uk](mailto:competition@northfieldscameraclub.org.uk) to check that it has been picked up.
2. Alternatively you may put your pictures on a USB or CD and bring it to club on the Tuesday before a digital competition.
3. You can also try emailing them to [competition@northfieldscameraclub.org.uk](mailto:competition@northfieldscameraclub.org.uk)
